COMPANY OVERVIEW

CodeBright helps startups, enterprises, and government agencies build AI-driven software, automate workflows, and scale operations. Specializing in MVP development, enterprise automation, and cloud solutions, we deliver secure, scalable, and compliant technology to drive real business impact.

CORE COMPETENCIES

- **AI-Powered Software Development**
- **Enterprise Workflow Automation** – Custom ERP, CRM, and automation tools.
- **Cloud-Native & DevOps Solutions** – Optimized deployment on AWS, Azure, GCP.
- **API Development & Integrations** – Seamless third-party system connectivity.
- **Web & Mobile Development** – Full-stack, secure, and high-performance applications.

PAST PERFORMANCE

With a strong portfolio of government, healthcare, fintech, and SaaS clients, CodeBright has successfully delivered:

✔ AI-powered automation reducing operational costs by 40% for enterprises.

✔ Custom-built MVPs helping startups secure funding and scale within months.

✔ Secure & compliant fintech applications meeting industry regulations.

✔ Large-scale workflow automation streamlining operations for GovTech agencies.
